FarmersOppose All Regulations Of Food Prices Senators From Agricultural States Hold Conference Over Proposed Return to Cut Cost of Living bring down prices, Arthur Williams, Federal Food Administrator for New York City, declared yesterday. Mr. Williams declared that Federal regulation of the food business would be heartily indorsed by consumers. Public spirited men would volunteer to direct the work, he predicted. "There is undoubtedly a great need for an organization to regulate both the production and sale of edibles," said Mr. Williams. The necessity is as great during this reconstruction period as during the war. "With Congress and the President authorizing the establishment of a new food administration, and with a man like Herbert Hoover at the head of it, the present unsettled and almost chaotic conditions could be quickly relieved. Sentators From Agricultural States Hold Conference Over Proposed Return to Cut Cost of Living with its unfair to charge profitering. With the present unsettled and almost chaotic conditions could be quickly relieved. "It is unfair to charge profitering."

"The wheat crop will be only 800,000,000 bushels, instead of 1,250,000,000
bushels," Senator Grenna, chairman of the Agricultural Committee, said.
"With the grain corporation's approval, the wheat is being graded low, and the farmer is getting a low price. This wheat, when it is ground, however, is marketed on a basis of \$3 wheat."

Senator Capper, of Kansas, asserted that wheat was being graded unfairly and that the profits were going to the miller and the operators of elevators. miller and the operators of elevators.

"I have taken it up," said Senator
the United States Grain Corporation,
but have received no satisfaction."

The governmental guarantee on wheat had been of no benefit to the farmer, T. C. Atkeson, representative of the National Grange, told the conference. The farmers were submitting to government regulation now only for "humanitarian reasons." he said. Wheat would go much higher, he believed, if prices were based on supply and demand. What Farmer Doesn't Want

"We should not permit further regu-lation said Charles A. Lyman, of the National Board of Parm Organizations. "We can't let them draw a red herring across the trial at this time."

J. A. McSparron, master of the Penn-sylvania State Grange, asserted that the farmers have been misrepresented before the public. The farmer is get-ting less than \$2.26 for his wheat. Mr. McSparron said, but manufacturers of breakfast foods are being paid as much at \$36 a bushel for their wheat prod-ucts.

meeting was held here in the office of Mayor Charles P. Gillen. It was called to discuss the purchase and distribu-tion of army surplus supplies, but this subject was subordinated as the meet-ing proceeded to the cost of living problem itself.

Resolutions were passed appealing for relief measures. These will be for-warded to President Wilson and New Jersey's Senators and Representatives. City Commissioner Underwood Coch-

New York Tribune Washingtom Bureau

WASHINGTON, Aug. 8.—The highcost-of-living emergency is due in large part to misuse by the Administration during the war of the power granted by Congress over the nation's food sundant of the petty overcharging in any one cycle of the food business, but with the manufacturer, the wholesaler and the retailer each exacting a little more than their due, by the time the commodity reaches the consumer it shows the earmarks of the petty overcharging.

Jersey Mayors to Carry Food Fight to Congress

Delegates of 17 Cities Meet and Name Committee to Appeal to

Delegates of 17 Cities Meet and Name Committee to Appeal to Washington for Price Relief

NEWARK, Aug. 8.—A committee of New Jersey in was appointed to-day at a meeting of seventeen officials of New Jersey in municipalities to visit Washington and make a personal appeal to the New Jersey representatives in Congress to campaign against high prices. The meeting was held here in the office of Mayor Charles P. Gillen. It was called to discuss the purchase and distribution of army surplus supplies, but this subject was subordinated as the meeting proceeded to the cost of living for relief measures. These will be forwarded to President Wilson and New Jersey's Senators and Representatives. City Commissioner Underwood Cochran, of Atlantic City, suggested the Constitution of homes, There is an unusual demand for houses there is an unusual demand for houses. There is an unusual demand for houses whele prevailing high prices, and there would be great building activity if it were possible to secure financial encouragement. The encuration of these two bills would tend to these two bills would tend to the set we bills would tend to the set we bill send to relieve the situation, and it is the only practical thing the government can do to help."

Explaining the purpose of his bill for the creation of a Federal home town banking system, Senator Calder said:

"The building and loan associations of the United States have encouraged stands are the purpose of home owning. I am told that these associations already have some 7,000 branches. The purpose of home owning. I am told that these associations of a building and loan associations of the United States have encouraged stands are the purpose of home owning. I am told that these associations of the United States have encouraged to the purpose of home owning. I am told that these associations already have some 7,000 branches. The purpose of home own to the purpose of home own to the purpose of home owning. I am told that these associations of the United States have encouraged to the

Jersey's Senators and Representatives. City Commissioner Underwood Cochran, of Atlantic City, suggested the appointment of a committee, and the others agreed unanimously. The committee of mayors selected includes Robert E. Torrance, of Kearny; Victor Mraviag, of Elizabeth; Frank Dorsey, of Perth Amboy; David H. Slayback, of Verona, and Frank Hague, of Jersey City.

scabrust and grasshoppers, the enemies of the growing wheat plant, bit 221,000,000 bushels out of the American crop last month. Wheat conditions on July 1 were so promising that the Department of Agriculture forecast a yield of 1.161,000,000 bushels, exceeding by 136,000,000 bushels the record production obtained in 1915. But lack of rainfall during July worked havor with the ripening plant, so that the prospect now is for a harvest of only 940,000,000 bushels. Last year 917, 100,000 bushels were garnered.

The loss for the month is equal to more than two bushels for each person in the country, or approximately one-third the average annual consumption. The loss in money, measured by the minimum price fixed by the government, is a trifle less than \$500,000,000.

The decline in the condition of winter wheat was severe, the loss of 124-000,000 bushels in the prospect bringing the estimated yield down to 715,000,000 bushels, but spring wheat suffered relatively much more, the prospetive harvest falling 97,000,000 bushels.

The corn promise also was reduced by 27,052,000 bushels by adverse

Plumb League Has Big Fund

Asks Senate to Support the Federal Loan Banking System and Relieve Tax-From Brotherhood Men

WASHINGTON, Aug. 8.—Hand in hand with the high cost of living goes the high cost of home building, Senator Calder, of New York, told the Senate to-day. In the State of New York, and the high cost of home building and loan associations of the United States to enable the people, he said.

Senator Calder urged favorable action upon his bill to create a Federal home loan banking system through the building and loan associations of the United States to enable the people to building homes. He recommended also that the income on a limited amount of real estate mortgages in the hands of real estate mortgages in the hands of individuals be relieved from taxation, thereby encouraging investment in these securities and assisting in making sufficient funds available for building purposes.

In the City of New York, Senator Calder said, mortgages on real estate mortgages on real estate mortgages on real estate mortgages on real estate in the semi-circle of committee members, who called on him to explain every phase of real estate mortgages in the hands of real estate mortgages in the hands of the labor bill.

Through it all, Mr. Plumb clung ateadfastly to the assertion, number-less times repeated, that the railroad unions aimed "to eliminate the motive of operation for profit and substitute the motive of operation for profit and substitute the motive of operation for service, to which he added the corollarity that "it means democracy in industry, with out which democracy in industry, with a sing sufficient funds available for building purposes.

The city of New York, Senator Calder said, mortgages on real estate of the purpose of the Plumb Plan League's Income of the plumb Plan League's Inco WASHINGTON, Aug. 8 .- Hand in long from a witness chair before the

pally of British ships, bombarded Ocha-kov, of the government of Kherson, forty-one miles northeast of Odessa, Tuesday night. More than five hundred shots were fired, which destroyed many buildings. Enemy ships also bombarded Stanislayov."

Unice eck, and because of the tax on return that these mortgages are being called in in large volume, thereby reducing the available money for building development.

"Something must be done to improve this condition," said Senator Calder, "and rather than have the government go into the housing business, which ins already cost us more than \$150,000,000, with little appreciable relief, it would be infinitely better to encourage private industry by passing the two bills I have described.

"The great difficulty to-day is in obtaining the necessary finance for the said was come to a new day," and the recessary finance for the said was committee. "They have seen their money and their lives to without liberty, and have now family to see they have come to a new day," and have now family to see they have come to a new day," and have now family to see they have come to a new day," and have now family to see they have come to a new day, and their lives to without liberty, and have now family to see they have come to a new day, and their lives to without liberty and have now family to see they have come to a new day," and have now family to see they have come to a new day, and their lives to secure liberty, and have now family to see they have come to a new day, and their lives to secure liberty, and have now family to see they have come to a new day, and their lives to secure liberty, and have now family to see the sold which the more and their lives to secure liberty, and have now family to see that the series of the government of Khe forty-one miles northeast of Od the shots were fired, which destroyed must be done to five sealing which destroyed must be done to five sealing which destroyed must be done to five sealing which destroyed must be done to forward the labor bill's stanislavov."

The communication says the Bolal vitations and the neighbor-hood of \$100,000 and implied that it more search to the season of \$1000,000 and implied that it more search to season of \$1000,000 and implied that it more season to season
